QR Code Link to This Post I have been trying to find a small dog for my sister and my nephew. I have messaged several people and each one gets offered more money from someone else, so they back out. I've even been checking the shelters for her as well. My sister would like anything between the ages of 6 months to 2 years old. Must be good with kids. She has a senior dog that she would like to be introduced to a younger dog before he gets up there anymore in age. Breed doesn't matter and she doesn't care about weather it's a male or female, just must be good with kids, good with other dogs and be at least partially if not completely potty trained. With Christmas so close, she's can't throw a lot at a dog right now but I told her I could help a little bit. (Yes, she can afford to take care of a dog, the holidays are just so close). Please message me if you know anyone with a sweet dog or puppyðŸŽŸ
