QR Code Link to This Post We have a female beagle, born 3-6-2016, who we need to rehome. Got her from CL a week ago but turns out I'm allergic to her. Sweet dog. Loves to be outside. Previous owner got her from a breeder. She said Nova had her shots but will need to be updated in a few months and she's not spayed yet. Had a surprise litter for the previous owner last year. Please text to set up coming to see her or for more.
