QR Code Link to This Post I have a 2002 Ford F550 ramp truck to haul anything under 9000lbs that will fit on the bed and safely! Cars ... trucks ... sheds ... furniture ... appliances ...etc.,etc. I have a 12000 lb winch as well.

Call me for a quote. I normally tow a lot of old cars and trucks. Maybe you bought a car on craigslist and need it picked up. Maybe you flip cars. No matter what you need, try me first!

To give you an idea of what I will quote, I would say \$40-75. \$40 would be based on a Nampa to Nampa tow because I am based at franklin and 84. \$75 would be caldwell to Boise tow if everything is straight forward. This is just to give you an idea before you call. For other places like marsing, homedale, fruitland, weiser, mountain home, twin falls, horshoebend and further just give me a call so I can get the details.

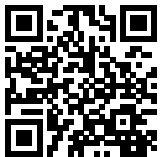

I do text messaging
 Email is fine too if you have a tow that is a couple days out or further.
