QR Code Link to This Post I'm starting a t-shirt business in San Francisco and need to hire a photographer with experience shooting people and low-key fashion or sportswear to take some pics of my friend in Annapolis wearing a few different tank tops that I've sent her.

It's a low budget, no hassle first session to get some traction for selling the shirts online. It's a shoestring project and pay is a flat \$150 for a 2 hour shoot and then uploading the raw files that same evening to my Dropbox. No editing necessary.

Photos will be documentary style at her gym and in her neighborhood. Some by herself. Some with her dog. And some with a friend.

You're welcome to use what you shoot for your portfolio. You'll receive credit if used on Instagram and if you're on Yelp or Facebook, I'll write a glowing review.

Shoot schedule is flexible based on your availability and hers. I'll coordinate and will provide some more direction once

you're hired.

REQUIREMENTS

- 1) Your rates should be higher than \$150 R or
- 2) You must have examples of your work online.
- 3) Your identity and online footprint must be verified for safety.

Student's ok..
