QR Code Link to This Post Hey guys!

My name is William Trostel. I am a freelance photographer based out of the Southeastern, Pa area. When taking on freelance photography as a full-time career I've learned you begin to photograph a lot less and worry more about the business side of things. I huge amount of that being looking for work. At this point I'm looking to find someone who would be willing to help me book gigs and then receive a percentage of the gig I book. Whether this be a gig weekly, or a gig once a month, anything helps. It could be as simple as a tweet/post or asking around to friends.
