QR Code Link to This Post I have a Radio scanner that we purchased new maybe 8 years ago - for watching NASCAR races out in Phoenix. Paid a lot of money for it, then we used it one time at a Friday ruck race and lost interest and never used it again. Those truck racers are enough to kill your interest for sure, we should have gone to a Sunday race instead. I have the scanner, two headsets, two antenna's one long and one short, an owners manual, and a booklet showing various frequencies. All to go for the one price, cash sale only. Jerry sixonetwo 7fiveone.
