

## CNC Mill 3 Axis (4500 USD)

Location Minnesota

https://www.genclassifieds.com/x-771792-z

QR Code Link to This Post This is a nice Used 3 Axis Shizuoka AN-S Milling Machine with the Milltronics Centurion V Control. The Shizuoka features the extra generous long Y Travel. Running on single phase through a rotary phase converter. I will throw in the phase converter with the machine if you want it.

## **SPECIFICATIONS**

Working surface 51" x 11"

T-slot 5/8" x 3" x 2.3/8" Center to Center

Longitudinal travel (X) 31"

Cross travel (Y) 17"

Ram travel (manual) 17"

Spindle quill travel (Z) 5-1/2"

Vertical table travel (manual knee) 17"

Spindle nose taper NMTB40

Spindle Speeds 85 - 3800 RPM (variable)

Spindle drive motor 3kW (4 HP)

3 phase

Feed rates 0.2 - 120 ipm

Feed rapid traverse (X & Y) 200 ipm, (Z) 120 ipm

Buyer to verify all specifications and options of equipment prior to purchase.

Comes with a Kurt vise, a rotary phase converter and many spare good parts. Including a vfd, 3 axis drive boards, 3 servo motors, relay boards, computer,
