QR Code Link to This Post Public television documentary about aging looking for people from their 30's through their 60's from anywhere in the US to participate as subjects.

Shooting expected to begin in spring 2018 and finish in fall 2018. Must have some flexibility in schedule in order to travel and live on location for 1 week in summer 2018; other shoots will be done in your own area and won't require altering your regular schedule.

Subjects will not be paid, but expenses will be covered.

If interested, please respond and send a 1 page max. written or video statement briefly telling us how you feel about growing old - is it something you consider often? Is it something you talk about with family? Have you had any experiences with friends or family that made you confront your own thoughts about aging?

Also please include basic info about yourself (age, where you were born, where you live, occupation), a photo, and anything else you'd like to include to give us a sense of yourself (bio, resume, photos/videos of yourself, social media links). Please also feel free to contact us for more.
