Set atop a ridge in the valley of San Juan de Dios in Costa Rica, Cascada Elysiana is thrilled to be welcoming Volunteers and Interns to our nature park and permaculture gardens, featuring one of Central America's most beautiful waterfalls (over 120 ft. tall!) and numerous other falls, cascades and dipping pools.

Our orchards and hiking trails are a reforestation project 30 years in-the-making and our campground will be open to backpackers and campers very soon and need your help getting ready for our future guests while getting to know and enjoy each other in the most beautiful setting nature has to offer :) We invite you to come adventure with us. Discover the beauty of this natural environment, investigate the depths of your inner environment, and explore the interconnection between the two. We seek to foster a multi-lingual, multi-cultural environment.

Lodging and meals are included for this position.
