QR Code Link to This Post Current drummer for various local bands looking for more.  
Most weekdays and Fridays are open in 2018.

I specialize in filling-in and subbing. I am a full-time musician who takes his craft very seriously (without being an uptight asshole). I do my homework to make your band sound its best. Current projects include soul, funk, rock, and jazz. I can and will play anything except thrash metal. 32+ years behind the kit -- 25 years in the business. Pro gear, pro chops, pro attitude.

Be in touch. You won't regret using me.
