QR Code Link to This Post Newly formed band out of Southern NH/MA needs a killer lead guitar player to complete our line up! We play progressive thrash metal with a blackened edge to it. Technical but highly aggressive, with a dark melodic quality. Our influences are all over the place, but as far as riffs are concerned, you'll hear hints of Skeletonwitch, Coroner, Extol, early Megadeth, and Dissection.

We're still in the early stages of writing, but everyone in the band is experienced and driven, and we're hoping to be stage-ready by spring of '18. We have contacts in the New England scene, and will be able to find gigs quickly when we're ready for them.

What we need from you: A reliable vehicle and gear [obviously], experience and willingness to play 2 - 3 gigs a month once we get started, a good attitude, and preferably excellent lead chops. You'll be the other half of a twin-lead sound, so expect to be trading off ripping guitar solos with another guitar player often. The ability to learn riffs quickly would also be a huge plus, as we have a good amount of material currently in the works, and the faster you can get up to speed on it, the faster we can hit the stage and start annihilating crowds.

If this sounds like the band for you, drop us a line and we'll send you some.
