QR Code Link to This Post We are looking to round out our amazing office space with two more thirsty souls. We are a fun group of individuals that all have our own businesses, consulting groups, etc. and that all got tired of working from home, from coffee shops, from "collaborative coworking" spaces and from uninspiring offices. We currently occupy the top three floors of the old Klamman Bottle building on Fore Street, above the Life is Good shop and we have a private, gorgeous and easy to rent space waiting just for you! The spaces have been tastefully renovated into incredibly beautiful offices, all with exposed brick, wide pine floors and charming views of bustling Fore Street in the front and hip Wharf Street in the back. The windows are huge, the floors shine, the track lighting is perfect and the color scheme is calming and well thought out. Each floor has a separate kitchenette and a nice bathroom. Rent of the office includes high speed business class Internet, heat/AC, and electric - it includes everything! It has mid-century modern furniture and is very tasteful but with character. We are a professional but fun group that is looking for the right person to join us. The offices are independent and private but we all feel part of a group. We all have our own businesses and are excited to have a new person in the mix! We have very little turn-over and a group that works well together sharing space.

While these photos give a basic sense of the space, they don't really do it justice! Come check it out.

Reach out to us! We'd love to show you around. Email or call Maggie Birlem at anytime. Office is available now. Rent for our offices range from \$500-\$650 depending on size, floor and layout and are all-inclusive.
