QR Code Link to This Post Sweet Tatah is an adorable 7-month old Lab mix puppy who arrives from Cairo, Egypt on Monday, December 11th ready for his very own loving Furrever Family. Our Cairo rescue partners tell us that Tatah was found on the mean streets of Cairo where strays are treated as vermin and regularly tortured by locals and poisoned by the government. Tatah was hit by a car, probably on purpose, and this poor baby boy was left on the streets to die. His front leg had to be partially amputated but that doesn't stop this playful and active puppy one single bit!

Tatah holds no grudges and is such a sweet and lovable pup. Apply now for beautiful Tatah and give him the opportunity to thrive and blossom! Adoption application, contract and fee to adopt.

Tatah is available for adoption through In Our Hands Rescue. If you're interested in adopting, the first thing you should do is fill out an adoption application at www.inourhandsrescue.com.
