This is NOT the Beat-Used-Abused-Unwanted-Improperly Cared For-Fell Off The Back Of A Truck crap that the local music stores are selling!

It was purchased new and looks like it.

I am the original and only owner.

In 2001 I purchased this new cabinet while I lived in NY from the manager, Monty, at Music Land in Lindenhurst, NY.

That makes the cabinet wood 15+ years old.

Aged wood ALWAYS sounds better than new.

It has never been played or stored in a/c climate controlled studio. It moved to Nevada in 2001.

At that time the Mesa Boogie Brown Shadow Series was starting to be 30's old and it's still going today.

This bin was covered with black shadows and it's a 30" x 14" x 35" cabinet of Brown Shadow.

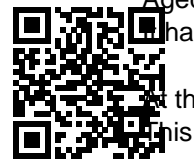

The top is PERFECT, no dings or tears or faded stains.

The top has an almost unnoticeable very small scrape along the top front edge about 3/8" long.

That's it.

It was used in practice for my use only or to play through amps that completed my repair or restoration.

That's it.
