QR Code Link to This Post Do you need product shots for your e-commerce store?

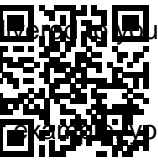

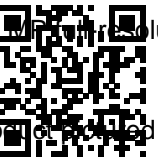

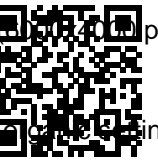

I can do a variety of different looks. Of course, the most popular is a shot of your product against a completely white background. But, I can also do different colored backgrounds, gradients, and more of an "organic" approach.

Rates:

For simple, small to medium size product shots (products under 36" x 36") taken against a completely white background, I charge:

With each product, you will get 3 complete, fully-edited images. These prices are offered when you send or deliver your product(s) to me to be shot at my studio. If you need me to come to you, please contact me for pricing.

- \$35 for 1 product (this is the minimum I charge for products shot against a white background due to the amount of setup and editing)
- \$50 for 2 products
- \$75 for up to 5 products
- \$100 for up to 10 products
- \$200 for up to 30 products
- \$300 for up to 50 products

I will image your product and deliver you in 24 hours in resolution of 3000 pixels. I will edit and crop so that it is ready to use on your website or other e-commerce sites. For other types of shots, for example your product placed in an organic setting or to use in a social media post, please contact me for pricing and a description of the look you are looking for.
