QR Code Link to This Post Selling a Verizon Galaxy S7. It's in great condition. There are some very fine micro scratches on the screen visible in direct light, but otherwise it's near mint. There is a tiny mark on the bottom near the USB port.

The phone comes with the unused charger, unused earbuds, used USB cable, the booklet, the SIM tray removal tool, and the original box. The phone is completely paid off. I'm trying for a local sale before I put it up on Swappa.

I'm located in South Fargo. Cash.
