QR Code Link to This Post I drive an Uber and I have a Samsung Galaxy EDGE 7 that I am trying to locate the owner of. Showed up a couple of days ago. Uber contacted all my riders and no one claimed it. I kept it charged waiting for a call but no one called it. It had a pattern lock so I could not call it. It's day 3 so we finally broke down and reset it to access the contacts but of course we can't without the Google login. So if you are missing a phone call me and tell me what company you are with and describe the case. No text or emails only voice calls. Do that and you get your phone back.
