I have been writing and recording original music for decades, and am seeking collaborators for co-writing of original music. I am a driven songwriter/lyricist. I studied singing with veteran voice teachers David Kyle and George Peckham. My concept is simple: you produce/record the music, and I produce/record the vocals. You send me instrumental music as a stereo mix, and I then add the vocal tracks- do a stereo mix, and send it back to you. I will also send you wav files of the seperate vocal tracks, that you can sync up in your daw and mix to your liking. I have done this successfully many times. This will work universally with all recording formats. It could be 1 or 2 songs, or more. I can write my own lyrics and vocal melody- no problem, but can also work with your lyrics and melody idea's if you prefer. I provide a service to help you achieve your musical goals, at a small flat fee of 75 dollars per song. I am quite versatile, as far as ANY musical style. Rock, hard rock, metal, power pop, ballad, jazz rock, fusion, soul, funk, progressive, country, folk, acoustic- are all good. If you are interested, you can send an MP3/other file by email.

I have over 10 CDs worth of my solo music (often playing all instruments too), and many recent recording projects on youtube. You can browse my various 350 + songs there. I have recorded over 160 songs by filesharing since starting my online vocal tracking services in early 2016. Lets make some satisfying musical statements!
