QR Code Link to This Post EDIT..... WOW the photos look like junk after upload. They are really good before all the compression.

I am an amateur photographer that would like to work out a trade with someone that can create wordpress websites. I have a basic idea of what I want and cannot figure out how to make it real.

I would do a portrait shoot, indoor or outdoor at a nice park or something in exchange for getting a web page up. If yo are up for experimenting and have a nice car or motorcycle I have some ideas for good photos. I wold just want to be able to use them on the web page to show my abilities. This is not a business site but instead a place I can show my work for friends to see. I do not use Facebook and want a place for all my photos to remain easy to find.

I am in Terrell but can travel for the photos or you can travel here. There is a nice park close to me and some woods. I have a studio in my spare bedroom.

I believe the web page I want would not require any in-depth detailed work and if it does I can change it.

If you can help please contact me. If you know someone that can help please give them my mail funmuggs AT hotmail DOT com

Thanks,

Bob

PS: That last photo looks a lot like
