QR Code Link to This Post IronMonkeyFilms have just completed are second short and are looking to tackle on someones story and make it visionary. We are looking for short scripts that are between 1-12 pages. Your script can consist of any genre, as long as it's possible to film without the heavy use of special effects and a green screen. We are not looking to buyout your script, we are offering a way to bring your script to life. We will plan for the short to be submitted to film festivals (not YouTube, Facebook, etc.) until submissions are completed.

Any questions you may have please let me know, if not, submit your script through here, or give us a synopsis of what your story is about at...  
<https://www.ironmonkeyfilms.com/script-submissions/>

Best Regards, Cody Kuehn
