QR Code Link to This Post I'm a real estate investor and I'm looking for a full time, reliable, honest and skilled handyman.

I have several rental units that need work done.

You need to have experience in ALL these trades :

- framing
- drywall (hang, tape, mud)
- flooring (lamine flooring, tiling, your need to own a wet saw)
- electrical
- plumbing

You also need to have ALL your own tools and reliable transportation.

This is a CASH job, 40+ hours a week

If you possess ALL the above skills, have experience and have your own tools, hourly wage starts at \$18,00 per hour. If you are good and make yourself indispensable, the pay could be later renegotiated.

I pay HOURLY, not by the job.

Tell me why you think you are qualified for the position with your trades and experience and a phone number to reach.
