The set is from 1976, number is 6-1662.

Included:

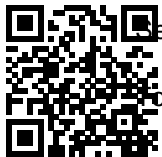

Tested and working Rio Grande steam locomotive (2-4-0) with working headlight. Engine moves forward/backward on command.
Coal tender with a realistic steam sound. Sound is synchronized to the pace of the engine. It's a mechanical chugging steam sound.
4 cars and some signs.
Working transformer.
Telephone poles and trestle set.
10 straight and 8 curved track pieces.
The box in good condition.

Owner is a non-smoker.

The real sound of a steam engine is the factor that makes this train special and more fun.
