

Lionel The Black River Freight Electric Train Set (75 USD)

Location **Wisconsin** https://www.genclassifieds.com/x-773230-z

QR Code Link to This Post Lionel O Gauge, 'The Black River Freight' electric train set.

The set is from 1976, number is 6-1662.

Included:

Tested and working Rio Grande steam locomotive (2-4-0) with working headlight. Engine moves forward/backward on command. Coal tender with a realistic steam sound. Sound is synchronized to the pace of the engine. It's a mechanical chugging steam sound.

4 cars and some signs. Working transformer.

Telphone poles and trestle set.

10 straight and 8 curved track pieces.

The box in good conidtion.

Owner is a non-smoker.

The real sound of a steam engine is the factor that makes this train special and more fun.

Email or call with questions.

Asking \$75.00 or make an offer.
