This beautiful silver stang only has 86,890 miles with an accident free Carfax report and only 4 previous owners all of whom serviced this car regularly since it was new at the same Ford dealership. This Mustang has everything you'd want including remote keyless entry, power door locks, power mirrors, power drivers seat, cruise control, traction control, fog lights, that Mach 460 stereo you know you want, 17 inch wheels wrapped in ZR rated Kumho Ecsta 4x Tires made the 14th week of 2015 with very few miles on them in excellent condition. This car also has all the appearance extras you could want including rear spoiler, side scoops, ground effects package, and yes the tinted windows are the icing on the cake. This car is in excellent condition inside and out and from the way it runs it feels like it has considerably more than the 260 horsepower it was advertised with and feels much quicker than any 260 horse Mustang I've ever driven. The Interior wood trim is a nice extra touch that was only available with the premium package and sets this one a step above other Mustangs in terms of interior style. If you are looking for a phenomenally nice 40th Anniversary GT with every available option in bordering on new condition you'll want to give this car a look.
