QR Code Link to This Post I'm needing someone to move equipment around the country for me for a tour. I'll have two 53' trailers with equipment needing moved starting and ending in SLC. The first tour starts at the end of Feb and the second tour starts at the end of March, both of them go through August. Each trailer will need to be moved roughly 20 times, with moves ranging from as short as 100miles to as long as 1500miles. Driver will need to find places to safely store the trailer between tour dates. Each event takes place over a weekend (typically the trailer will need to be in place by 7AM on a Friday morning, preferably the evening before, and will then need to move after the event is finished and trailer loaded on Saturday evening) Some of the events are on Sunday which will push back this date.

I'm looking for an owner/operator interested in making all of these moves, I am not interested in a broker or someone who wants to arrange for other drivers to make the moves, I need someone willing to be dedicated to moving my gear.

If you are interested, please contact me with your desired mileage rate and any additional questions you may have.

Thank
