QR Code Link to This Post I am selling a full size spring mattress that's only been used for a year or so. In great shape. I just need to get rid of it, because it was in my guest room which is now being rented out, so my new roommate has their own mattress. I don't have a good photo of it, but it looks like a clean white mattress :) I don't remember the brand name, but it was from walmart.
