QR Code Link to This Post i have a "Brand New"Shuriken SK-BT45 12-Volt High Performance AGM Power Cell Battery for Systems Up To 1250-Watts for \$140 or best offer thought it would fit under my hood but its alittle to wide.

No Trades

Shuriken Power Cells are engineered for today's high-performance mobile audio systems. Utilizing Shuriken's Absorbed Glass Mat (AGM) technology, these rechargeable power cells can be mounted in any position and will not spill.

The power cells are extremely resistant to excessive heat and strong vibration. They can be discharged and recharged hundreds of times. With super-low ESR and closely packed pure lead plates, each power cell packs a punch. Many Shuriken Power Cells are designed to deliver the winning edge at SPL competitions. Others provide the consistent backup power needed for powerful car stereo systems, especially when parked for parties and shows.

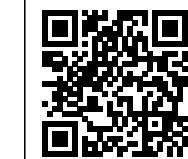

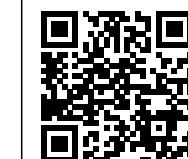

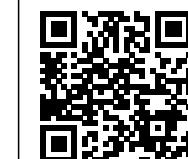

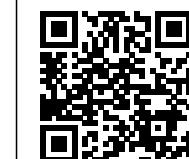

- + Absorbed glass mat technology
- + Can be mounted in any position
- + Low internal resistance for better mobile electronics performance
- + Reserve power in a compact size

Specifications:

- 1250 Watts

- 45 AMP Hours
 - 2 Volts
 - 32 LBS
 - Width: 7.169 MM
 - Height: 5.169 MM
 - Depth: 6.69 / 169 MM
