These guys are identifiable to family, friends, people who know them. Especially here in snow country where we could ID people we know covered head to toe (snow season). Mannerisms, gait, the way they are. One may have shown behavior change after the Dec 6, 2016 crime (the night before the day that lives in infamy). Even with slightest suspicion, report it. It doesn't mean you're sending him to prison, he may have answers for investigators. Maybe knows connection to victim, maybe an incident. Tell everyone to see the footage. Save someone else, maybe a loved one, they may kill again. Contact authorities in Weber county:
