This thing was never used. Built 2 months ago and I haven't even attempted to use it lol just want it gone. It's about 4ft long 2ft deep and 3ft tall. Comes with and holds 12 hatchling tubs, 4 medium-sub adult tubs and on the top tier it holds 3 adult tubs.(left side was left longer at the top to expand for 3 more adult tubs later on) It's made out of melanine board and 2x3s. It's pretty sturdy but it IS HEAVY! Lol... it has both sides and back made from paneling board just to cover and the right side isn't attached because I never installed the heating. All you need is heat tape and you are all set. I will include daisy chained wire with connectors already attached and insulators included also. Install your heat tape and put the side panel on and your!
