I am looking for OUTGOING people who can knock peoples socks off and make them smile!

You will walk around and promote and sell products we produce. We will show you have to demo them and how to make people smile.

There is NO INVESTMENT you are going to make money doing this not spend money. We are happy to go into more detail for the right person.

What you need to be able to do is simple...

Walk around going into businesses say hello to people show them these fun amazing products and if they like them sell them to them. There are some other great ways to make money too if they are not interested in buying at the time they see you or maybe they are looking for something that you won't have on you. But, you will see that you can still make money even if the time is not right or you don't have the product on you at that time.

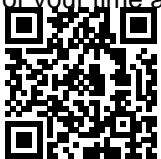

This is 100% legit and we are happy to tell you more. We ask only that you email the following info

Your first name  
Location in town you live  
A phone number to call you at as this is too much to communicate via email  
When you available each week

Thank for your time and we hope to find some great!
