You MUST know your camera, I do not have time to train you on how to use your gear...this is an easy gig, NO EDITING.

Mainly you'll shoot roughly 60 people in a ballroom on stage (I'll be shooting as well), help me set up for a group shot and shoot some random candids. You must be personable and NOT shy...able to interact with people, take simple direction from me and get the job done without being babysat. I need RAW, clear, well framed images. This is not a job for program mode, you must know your proper Manual settings and have a camera with sufficient ISO.

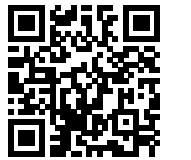

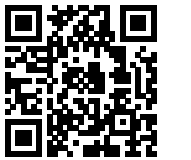

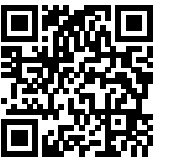

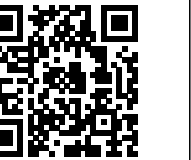

Attire is all black...no exceptions...this is a semi dressy event, no jeans no athletic shoes.

You represent me and my brand. Any word of advertising for yourself will result in immediate termination. I've had some issues in the past so it's best I put this on the line up front.

*December 16th - Scottsdale - 11:30am-2:30pm

Short Informal Interview/Meet & Greet - Tuesday Dec 12th in Tempe OR Wednesday Dec 13th in Mesa. Details provided to those who qualify. I can be somewhat flexible on time if you have a regular job on this day.

To be considered email your gear list, DSLR camera (only), speed light/flash and lenses as well as your experience & a few samples of your work. Emails without all the required information as listed will be deleted and not responded to.

 Name - # - Email - City you Age - Gender - Camera - Lenses - Flash - Accessories - flash card size etc Prior Experience - Sample of previous work is welcome as your website/social media if available.
