QR Code Link to This Post Hello My name is Victor and I recently moved here from Ohio. Im looking to assist a church who needs a drummer. As of now I would need to be transported back and forth from the church but that is very temporary and i will adjust my pricing accordingly. Ive been playing the drums as a hobby since i was a teen however never fully 100% "mastered them" However I did used to play for a church and a band back in that day and LOVED IT!Plus I could truly use the extra cash while setting my foundation here. I also can play the bass guitar (which i taught myself) but im still learning that so i could do more filling in here & there while also perfecting my craft. (Also dont have mine with me it would have to be provided bc i left mine in Ohio)

I have a natural ear for music and if given the time I can learn to play anything! Again this was a hobby but due to my needs and genuine love for music Id really like the opportunity to come play for your church or small event. Thank You!
