QR Code Link to This Post My first book is going to press in two weeks. I've started work on my second book. This book is centered around fine art. It will be a mix of models and I will shortly be starting on another trip to the east coast.

Rate: USD 50 per Casting

I am looking for models anywhere.

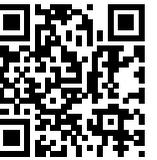

This book is fine art, but full artistic nudity is not required. I can work with implied or models covered with drapes. I am open so long as the concept leans towards fine art rather than fashion or glamour.

I am flexible as to body type. I will consider some models out of the box. If I choose to shoot you, you will be guaranteed publication in the next book which will come out next summer.

You must be at least 18 to participate in this project. If you are under 18, you are welcome to email me to inquire about other opportunities, but this book is explicitly limited to models over 18.

Compensation for this shoot is listed as \$50 per shoot. If you choose money, you will not receive images from the shoot. If you'd like images, I can consider TF. Likewise, in some circumstances, I might consider payment over \$50 for the shoot, but if so, I will need to meet you in person before making a higher offer.

If you have any questions please contact
