QR Code Link to This Post Welcome to Turing Turing is the first of four apartment communities to open at The Fields. These studio, one, two, and three bedroom floor plans introduce a never-before-seen blend of beauty and modernity to Milpitas. The community is named after Alan Mathison Turing, an intellectual and innovator whose contributions to society still resonate today. Celebrated as the founder of computer science, he laid the foundation for modern technology and inspired a new way of thinking. Most famously, Alan Turing cracked the Enigma communication code used by the Nazis in WWII and helped advance the war effort for the Allies. He also created the groundbreaking Turing Machine, a device used to compute complex algorithms that became the basis of computers today. Additionally, his significant contributions to the field of mathematical biology are still used to study biological systems.

- Bocce Ball Court
- Dishwasher
- Additional Storage
- Two Podium Courtyards
- Coffee Bar
- Quartz Countertops
- Luxer One Automated Packaged Reception Lockers
- 9' Ceilings
- Outdoor Sports Bar with Ice Trough
- Central A/C & Heating
- Pickle Ball
