A bizarre goober wrote on 11/30: "Question for the Commie Libtard Avenger (pjohnson980)

If i rammed my cock up your ass and bitch slapped you upside the back of the head would you squeal like a pig for me?"

They cowardly took down the post.

ANSWER:

Your name calling indicates you are an idiot, or worse yet, a conservative. You asked the question if you were to act like a typical republican and attempt to rape a male, what would happen. The answer is simple. Several of your bones would be snapped, ending with your neck being snapped. You would never rape again. Republicans shouldn't rape people. They shouldn't molest children. Conservatives like you shouldn't even exist.

Thank you for your question, hopefully is will help you control your conservative desire to rape.
