QR Code Link to This Post I have a 1995 Thunderbird, it has about 175,000 miles on it (give or take). 4.6 v8 automatic trans. new ac, spark plugs, wires, alternator, fuel filter, flow master 10s(not loud at all, old muffler was clogged up so replaced), and tires (less than 1,500 Miles). Runs and drives just fine, I used it for gas mileage but have since gotten a new car so I don't drive it very often anymore. It isn't perfect but it is reliable. Front bumper has a crack in it, head liner is rough but doesn't sag any, and has a small hole in drive seat. It does burn about half a quart of oil between oil changes but that is the only problem I have found with it. Asking 1,600 or best offer, maybe trade for something (rims and tires, four wheeler, another car or truck) Title in hand. Call or text
