QR Code Link to This Post I'm a hobbyist photographer interested in trying/copying shoots that I think look cool. Since it's the holiday season, I've seen photos of people wrapped with Christmas lights and wanted to give it a try myself.

No modeling experience needed.

You will be compensated for the shoot, thinking \$100-120.

Preference will be given to those who are available during the week day, I am flexible on which weekday we do it.

Please respond with a couple pictures of yourself and specs, along with why you're. ðŸ™,
