- 157432 miles
- currently has issues, was driving great before
- fair low KBB value of \$1,415, listed for under 1/2 this with a clean title
- idle screw & throttle position sensor could use adjustment
- \* Catalytic converter is clogged & needs to be unclogged or replaced
- \* catalytic converter is available for \$67 online
- \* now misfires & cuts out above 25 mph, seems to be exhaust related
- might need a new battery

Please call or text.

- 1.5L DOHC 16-valve L4 engine
- was previously a really great car & was driving very well at highway speeds
- exhaust manifold had a crack that was patched with furnace cement
- high MPG gas saver when running properly
- needs TLC
- beater with a great heater & nice CD player
- alloy rims

Please call or text for pictures.

- newer front & rear brake pads installed
- newer front & rear wheel back
- 1.5L DOHC 16-valve engine
- great gas mileage
- nice alloy rims & CD player
- new fuel pressure regulator
- new distributor cap & rotor
- newer plugs & wires
- mechanic's special, probably an easy fix
- Clean title
- will need new tags or Z tags in the valley
