2 BMW mufflers (120 USD)

Location **Alaska**
https://www.genclassifieds.com/x-775021-z

QR Code Link to This Post $120 for both BMW 335i exhaust mufflers
- made in Germany by BMW (Bavarian Motor Works)

pictures of the same model shown;
I can text pictures of the actual 2 mufflers.
- 2 mufflers were taken off a 2005 BMW 335i when the car was close to new
- they list for about $2,000 on order from BMW

- These are original mufflers made by the Bavarian Motor Works (BMW) factory in Germany.
* These were cut off to install aftermarket mufflers.
* They will require welding

The pictures shown are of a different set of new BMW mufflers that are the same model. This set for sale was used for very low miles before removal. They're in storage, and I don't have pictures right now.

- This pair of mufflers could be fitted to other cars as well, if you are upgrading a project car.
- same style dual BMW muffler set as shown in these pictures
- Good condition and barely used, but not brand new
E30 335i 335ix 325i
