QR Code Link to This Post Fell in love with PRS Custom 22 so I have to sell my Fender. It's one year old, mint condition, sweet sounding. It's American made. I'll throw in a Mustang II amp.

The Fender Mustang I V.2 modeling combo amplifier gives you robust amp modeling, awesome guitar effects, and tasty artist presets. The easy-to-use Mustang I V.2 serves up over three dozen amazing digital effects, but it's also a modeling preamp with an entire collection of amps at your fingertips. You can also inject all this juicy guitar sound right into your DAW via USB. And with its aux input and headphone output, you can use the Mustang I V.2 as a silent practice system. Make way for Fender's take on guitar multi-effects: the Fender Mustang I V.2 combo!
