QR Code Link to This Post From what I've read, you are the one spouting fake news. Who are you kidding? Besides, who the hell cares what Mexico, Spain? (your kidding me) say about us. The countries you mentioned stand to lose from the US exiting deals that are not beneficial to the US. Germany? the country that gave its country away to terrorists due to "Nazi Guilt". I'm sure you cherry picked a comment from some far left source in Israel. BB loves Trump.

The countries that matter have a new respect for the US, something that was lost under.
