I have a variety of part time tasks for someone who is industrious intelligent and professional.

First priority is house cleaning, if you qualify, there are additional tasks for my consulting business based on your skill set and references.

You are a non smoker, drug free with your own transportation. Hiring a fellow gay guy is preferred.

I'm not looking for a live in or houseboy.

Initially, I'll need about 3-4 hours per week of housekeeping help to start, but it can increase depending on how you work out.

Please reply with detailed information, skills, interests, time available.

The best time for me is after 6 PM weekdays and weekends. Thanks.
