Sometimes love is blind, but sometimes love is just simply weird. "Bro" is a film about two thirty-something men who meet on a dating app and sparks fly. They hit it off immediately, but their relationship might be doomed from the start. Gay dramas haven't been represented like this before. If submitting, please be comfortable with queer/gay themes and subject/theme.

This project is not union, but the material is powerful and stands to be a sleeper hit. This will bring more opportunities. We hope that it can serve as a vehicle to grow our production company along with our talent.

The lead male is a recent arrival to Los Angeles. He is everything anyone could ever want in a boyfriend and a partner... he seems perfect, but looks can be deceiving. Travis is a masked character that has a hard time letting his guard down. He pretends to be open-minded, but he hides more than a few skeletons in his already crowded closet.

Lite nudity is required. (back-side only)
Shoot dates: 12/18-12-22, 12/26-12/29, 1/3-1/6. Dates are not.
