QR Code Link to This Post Popsicle is a sweet and loving female kitty looking for a forever home. This treasure was in a litter of 8 kittens last summer. She was the only female and the prettiest of the bunch. She warms and loving and quickly settles in new environments. She's very playful and healthy too. She's now 18 months and fully vetted which includes testing and spay. We'd love to find her a new home. She'd do well with an individual or family. She was raised with dogs and children. Help this sweetheart out and bring her home. ARC
