QR Code Link to This Post Pricilla is a sweet well kept bi-colored female kitty looking for a forever home. This treasure was in a litter of 5. She was the only female and the prettiest of the bunch. She tends to be shy when first meeting her but warms up quickly with encouragement and food. She's very playful and healthy too. She's now 18 months and fully vetted which includes testing and spay. We'd love to find her a new home. She'd do well with an individual or family. She requires some patience to trust the new family. She was raised with dogs and older children. Help this sweetheart out and bring her home. ARC
