QR Code Link to This Post I am moving across the parking lot in my apartment complex on Saturday, December 16, 2017, no moving truck is needed. I prefer to move early in the morning around 8:00am to allow for clean-up in the afternoon and evening. I want to hire a professional bonded moving company that speaks English as his or her primary language because I will direct everyone on the team. I need a team of three (03) people.

I need you to see what I am moving which includes two (02) 3.0 cubic floor safes, a small freezer chest filled with food and a three sectional IKEA computer desk which cannot be disassemble. I have a Bassett canopy which the movers have to disassemble and reassemble in the new apartment. Along with IKEA library assembly that needs to be separated and reassembled. These items are extremely important.

I had problems with a moving company when I moved here from San Francisco, CA. I am packing everything that the movers will transfer. I will move the clothes in the master closets, my jewelry boxes, my computers, my bicycles and my golf clubs. Your crew will move everything else. The new apartment is in the adjacent building across the parking lot. I am moving from a two bedroom ground floor unit to a three bedroom second level unit across the parking lot.

I will require a list of references and we need to use a contract with liability coverage outlined in the contract along with moving addresses, which I will supply after site visit and moving date with starting time. In addition, I need to know that your company is registered with the State of Maryland, I need to know your DLLR number. I need you to email a sample contract for review and editing at least a week before the move. I will need you to do a site visit so I can explain the aspects of the move. Payment will be dispensed through credit card payment or check only. Please send an email if you are interested in pursuing the.
