QR Code Link to This Post I need tech consultants in the following areas.

- 1) I have FX 100 Canon Camcorder. I need you to coach me how to migrate files from the chips into computer and play back, show me how to create CD from these files.
- 2) I have a very popular restaurant. The customers call a lot, on and off operating hours. The has been a lot of miss calls. I want you to upgrade the telephone system, advise me how to set up personnel so that the phone is answered call the time (except when it's obviously late, holidays, etc.).
- 3) Website. How do I monitor/update the restaurant online information? How I can let the customers order online, how do I change prices/menu, etc.?
- 4) There may be something else that you can advise me.

You can be one person or 2-3 persons.
