QR Code Link to This Post I am an experienced photographer. I am searching for new people to collaborate with on a project this fall. It's a shoot that has a glamour look and film noir vibes. My goal is to bring out a rich palette of colors mixed with gorgeous subjects.

My requirements are that you, as the model, be at least 18, be available during afternoons or nights during the week and are comfortable with lingerie and edgier looks.

No experience required because i give a lot of direction. I just need to find really captivating models. Compensation is dependant on content and experience level. Everyone will receive edited photos.

If you are interested, please attach at least two photos of yourself, your age height and measurements, your general location, your availability and your mode of transportation to get to the shoot.

Hope to hear from you
