QR Code Link to This Post My name is Annie! I am one year old. I was rescued from an adoption facility that had their hands full. I was lonely and had a very painful ear infection that no one noticed. That's why I am named after Little Orphan Annie. I sang quite a few ballads during the worst part of my ear infection. After some strong antibiotics and a lot of love, I am healthy and happy. I love to play with my hot pink feather on a stick. I love the stick. Don't judge.

I'm super cute and very talkative. I love to be petted, but on my terms. I will ask to be petted a lot this way! Sometimes I like to cuddle too.

Unfortunately, the person who adopted me has another kitten that I don't want to live with. I would do better as a single cat or maybe with an older cat.

I am current on my shots and I am spayed.

Small re-homing fee.

If you'd like to meet me, please call or text my!
