QR Code Link to This Post Beautiful female kitty needs to find her forever home.

She wondered into our lives a little over a week ago and haven't found her owner (not chipped)

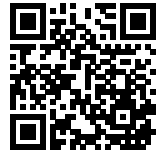

She's not fixed and has her claws.

Litter trained. LOVES attention and to play. Gets nervous around dogs but calms down quickly.

She likes to go outside and explore but she always comes back once she's done.

We would love to keep her but our little princess diva cat will not allow it.

There is no rehoming fee we just want someone to love!
